

Math152 - Calculus I - Winter 2005

Quiz #2, January 24, 2005

In the following problems you are required to show all your work and provide the necessary explanations everywhere to get the full credit.

1. Find $\int \cos^5 3x dx$.

2. Find $\int \sin^2(x - 1) \cos^2(x - 1) dx$.
